Address
554 Buccaneer Street, Elarduspark, Pretoria

Nationality
South African

Driver's License
Code B

CORE SKILLS

- **Full-Stack Development**
- **PHP / MySQL Development**
- **Database Management**
- **API Integration**
- **AI Tool Development**
- **PDF / OCR Automation**
- **Workflow Automation**
- **Dashboard Development**
- **Report Generation**

DEVELOPMENT STACK

- PHP
- MySQL / SQL
- JavaScript
- HTML / CSS
- Python
- Java
- C#
- WordPress
- Moodle
- OpenAI API
- Make / Integromat
- phpMyAdmin
- cPanel
- Dompdf / PDF Export
- REST APIs / Webhooks

EDUCATION

IIE Diploma in IT in Software Development
Varsity College | 2018

Matric
Pretoria Chinese School | 2013

PERSONAL

Date of Birth: 02 December 1995
Gender: Male

CURRICULUM VITAE

Khawulele Duma Makopi

Software Developer • Database Specialist • AI Developer

PHP / MySQL	AI / OCR	Automation
Internal Systems	OpenAI API Tools	Webhooks & Reports

PROFESSIONAL PROFILE

Software developer with strong experience building PHP/MySQL web applications, internal verification systems, dashboards, automation workflows, and AI-powered document tools. Skilled in JavaScript, HTML/CSS, SQL, OpenAI API integrations, OCR workflows, PDF generation, webhooks, and database-driven reporting. Focused on building reliable, secure, user-friendly systems that improve business processes and reduce manual work.

WORK EXPERIENCE

Software Developer / AI Developer | NFMi

June 2024 - Present

- Built PHP/MySQL document upload and management systems with structured folders, metadata storage, and recycle-bin deletion.
- Created database-driven forms, dashboards, and reports for employee, employer, shutdown-period, onsite, invoice, and verification data.
- Implemented autosave functionality, dynamic forms, document upload workflows, checkbox-driven validation, review-note flows, and PHP endpoints for database updates.

- Developed **Mi-Summarizer**, a Python AI app that converts pasted content into downloadable PowerPoint slides, Word documents, summaries, and content files using the OpenAI API.

- Integrated webhooks, JSON payloads, APIs, and Make/Integromat automations for grouped database exports.
- Generated branded PDF verification reports with Dompdf, including structured tables, payment verification results, findings summaries, and conclusion sections.
- Built AI/OCR tools with the OpenAI API for CIPC document analysis and automated extraction of registration/address fields.
- Developed AI assessment-marking and chatbot/query tools for PDF uploads, automated feedback, report summaries, and conclusions.
- Built and managed Spike and Bird Learning Management System and countless other LMS.

Database Specialist / Software Developer | RABS Investments

March 2023 - May 2024

- Contributed to a database management website using WordPress and C# tools.
- Tested, debugged, and optimized database features for performance, integrity, and security.
- Managed database structures, imports, exports, data cleaning, and integrations.
- Prepared documentation for database procedures and project updates.
- Monitored database reliability, security, performance, and reporting outputs.
- Maintained accurate datasets for internal workflows and management reporting.

Marital Status: Single

REFERENCES

Available upon request.

Data Analyst | Tusanang Training Academy

July 2022 - March 2023

- Used statistical tools to interpret and present data to stakeholders.
- Coordinated projects and maintained learner information using integrated management systems.
- Scrutinized, cleaned, and analysed data to identify trends and facts.

Computer Technician | Gauteng City College

January 2021 - July 2022

- Conducted repairs and maintenance of computer equipment.
- Configured new hardware, installed software packages, and prepared workstations.
- Trained staff and students on software usage and basic system processes.
- Diagnosed hardware, software, and connectivity issues for staff and students.

IT Technician and Data Analyst | Digni Financial Services / Netis Consulting

August 2020 - December 2020

- Installed and updated software packages and maintained networks.
- Connected user devices and configured basic system access.
- Analysed raw data using Microsoft Excel to identify trends.

Cashier / Administrator | Refresh Laundry & Laundry Enterprise

October 2015 - January 2020

- Managed general administrative duties, invoicing, and cashier responsibilities.
- Supervised staff, provided customer service, and resolved customer queries.

KEY ACHIEVEMENTS

- Developed PHP/MySQL systems for UIF verification, document management, payment verification, findings, reports, and dashboards.
- Built OpenAI API tools for OCR, document analysis, chatbot assistance, and automated assessment marking.
- Implemented autosave, dynamic forms, checkbox validation, and calculation workflows with JavaScript and PHP endpoints.
- Generated Dompdf reports and structured database outputs for audit and verification workflows.
- Automated workflows using webhooks, APIs, JSON payloads, and Make/Integromat.

PROFESSIONAL STRENGTHS

Problem Solving	**Communication**	**Attention to Detail**
Teamwork	**Fast Learner**	**Works Under Pressure**
